

OSAKA Paper Cup Machine

Model No.: OS-L12

OS-L12 Paper Cup Forming Machine is multi-station automatic machine. It has continuous automatic procedures like feeding, sealing, oil -filling, washing, heating, knurling, curling, unloading, etc. It is ideal equipment for producing paper testing-drinking cups, market cups, advertising cups, etc. It is widely used for hot drink and beverage. If you want to make two-side (double) PE coated paper cups, we recommend you to use OS-2L12, ultrasonic paper cup forming machine.

FEATURES:

- 1) The main-frame of the machine is an incline. And the incline can help the cups easily drop into the plastic holes, the rate of which goes up to 99.99 %.
- 2) The shape of the head is oblate, which can seal the cups easily. It is much better than that is round.
- 3) The machine sends the bottom paper up to the cup automatically and adjusts itself because of a spring.

Technical Data	
Suitable size	3oz—12oz and other special size
Raw material	Single side(one side) PE(polyethylene) film coated paper
Suitable paper weight	150-320GSM (Recommend 130--280 GSM)
Ration Productivity	45--55/min
Total power	5KW
Net Weight	1300kg
Gross Weight	1800kg-1900kgs
Power	380V / 220v
Packing size	2600*1100*1700
